1 CORPORATE INFORMATION

Baladna Q.P.S.C. (the "Company" or the "Parent") was established in the State of Qatar under commercial registration number 140310, as Qatari Public Shareholding Company. The Company finalized legal documentation for the process of establishment and issuance of the Commercial registration on 2 December 2019 (the "Establishment Date"), pursuant to the provisions of Qatar Commercial Companies Law. The Company's registered office is located at P.O Box 3382, Um Alhawaya Farm, State of Qatar. The Company's shares are traded in the Qatar Stock Exchange.

The principal activities of the Company and its subsidiaries (together referred as the "Group") are agricultural activities of production and sales of milk, juice, slaughter of animal and sale of meats and detergent. The Group is also engaged in the investment and management of agricultural projects, along with investments outside the State of Qatar.

2 BASIS OF PREPARATION

These interim condensed consolidated financial statements for the nine months period ended 30 September 2026 have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting".

The interim condensed consolidated financial statements have been prepared on the historical cost basis except for investment in financial assets at fair value through profit or loss and biological assets which have been measured at fair value in accordance with IFRS Accounting Standards.

The interim condensed consolidated financial statements have been prepared in Qatari Riyals ("QR"), which is the Company's functional and presentation currency.

These interim condensed consolidated financial statements do not include all the information required in the annual consolidated financial statements and should be read in conjunction with the Group consolidated financial statements as at 31 December 2025. In addition, results for the nine month period ended 30 September 2026 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2026.

These interim condensed consolidated financial statements were approved and authorized for issuance by the Board of Directors on 27 October 2026.

3 MATERIAL ACCOUNTING POLICY INFORMATION

3.1 New and amended standards and interpretations adopted by Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of the following amendment effective as of 1 January 2026.

The following amendment applies for the first time in 2026, but did not have an impact on the interim condensed consolidated financial statements of the Group.

Topics	*Effective date*
Annual Improvements to IFRS Accounting Standards – Volume 11	1 January 2026
Amendments to IFRS 9 & IFRS 7 – Classification and Measurement of Financial Instruments	1 January 2026
Contracts Referencing Nature - dependent Electricity – Amendments to IFRS 9 and IFRS 7	1 January 2026

3.2 New standards, amendments issued but not yet effective

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's interim condensed consolidated financial statements are disclosed below. The Group intends to adopt these standards, if applicable, when they become effective.

3 MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

3.2 New standards, amendments issued but not yet effective (continued)

Topics	*Effective date*
IFRS 18 - Presentation and Disclosure in Financial Statements	1 January 2027
IFRS 19 - Subsidiaries without Public Accountability: Disclosures	1 January 2027
Translation to a Hyperinflationary Presentation Currency – Amendments to IAS 21	1 January 2027
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – Amendments to IFRS 10 and IAS 28	Deferred indefinitely

IFRS 18 – Impact Analysis on Statement of Profit or Loss Presentation
IFRS 18 requires income and expenses to be classified into defined categories, including Operating, Investing, Financing, Income Taxes and Discontinued Operations, and requires the presentation of defined subtotals such as Operating Profit and Profit before Financing and Income Taxes. Based on the Group's preliminary assessment, the adoption of IFRS 18 is not expected to impact recognition, measurement, net profit attributable to shareholders or earnings per share. However, the Group expects a presentation impact on certain profit or loss subtotals.

The Group is currently evaluating the impact of these standards and amendments. The Group will adopt it when these become effective.

3.3 Basis of consolidation

Subsidiaries are entities controlled by the Group. The financial statements of the subsidiaries are included in these interim condensed consolidated financial statements from the date that control commences until that date that control ceases. The Group consolidates all the entities where it has the power to govern the financial and operating policies. All balances and transactions between Group entities included in these interim condensed consolidated financial statements have been eliminated upon consolidation. Upon loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interest and the other components of equity related to the subsidiary. Any surplus or deficit recognised upon loss of control is recognised in the condensed consolidated interim statement of profit or loss. If the Group retains any interest in the previous subsidiary, such interest is measured at fair value as at the date control is lost. Subsequently it is accounted as an equity-accounted investee or as a financial asset under IFRS 9 depending on the level of influence retained.

Non-controlling interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the interim consolidated interim statements of profit or loss and interim consolidated financial position separately from the Company shareholders' interests.

The interim condensed consolidated financial statements comprise the financial statements of the Company and its subsidiaries (together referred as the "Group") as at 30 September 2026. The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company using consistent accounting policies. The interim condensed consolidated financial statements include the financial statements of the Parent and its subsidiaries listed in the following table:

4 ESTIMATES AND JUDGMENTS

The preparation of these interim condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates. The critical estimates and judgments used in the preparation of these interim condensed consolidated financial statements are consistent with those used in the Group's consolidated financial statements for the year ended 31 December 2025.

5 FINANCIAL RISK MANAGEMENT

The Group's financial risk management objectives and policies are consistent with those disclosed in the Group's consolidated financial statements for the year ended 31 December 2025.

22 FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial assets consist of financial investment at fair value through profit or loss, cash and bank balances, due from related parties and trade and other receivables. Financial liabilities consist of Islamic financing contracts, trade and other payables, due to related parties and lease liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Differences can therefore arise between book value under historical cost method and fair value estimates.

Fair value hierarchy
The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows an analysis of financial instruments and biological assets recorded at fair value by level of the fair value hierarchy excluding those whose carrying amounts are reasonably estimates of their fair value:

	1,188,584,272	994,476,800	194,107,472	-

During the period, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurement.

Biological assets are measured at fair value less cost to sell, based on local and international market prices, whenever available, of livestock of similar age, breed and genetic merit with adjustments, where necessary, to reflect the differences.

The Group's biological assets comprise of both immature and mature livestock. Immature livestock comprises dairy cows that are intended to be reared to maturity. These immature cows are held to produce milk or offspring but have not yet produced their first calf and begun milk production.

The fair value of immature livestock is determined by reference to meat price of veal, adjusted to reflect the age of the calves and to the landed cost of a heifer by reference to the recent purchases of the Group. The fair value of mature cows is determined by reference to latest landed cost of a heifer by reference to the recent purchases adjusted to reflect the decline in productivity through the lactation cycles, the meat price at the point of slaughter.
